THE VANILLA PLANT.

Beans From Which We Get the Popular Flavoring Extract.

The best variety of vanilla comes from vanilla planifolia, which requires a mucky, porous soil. The plant thrives up to a height of about 1,000 feet above sea level, and as its fleshy roots do not penetrate deep into the soil it requires only a proportionately thin layer of soil. The plant bears merchantable fruit in the third year, sometimes even in the second year, which requires from seven to eight months to mature, and the harvest takes place from April to June. Five to seven harvests are made from the same plant before it is exhausted. New plants must not be planted in the same place as the old.

Protection against wind, also shade, is of great importance for the growth of the plant, and therefore the fields must be surrounded by trees and hedges. Grubs and snails are enemies of the vanilla plant. The former eat the roots and the latter the young sprouts and beans. While in the third year only about one-tenth part of the plants blossom, the percentage increases from year to year up to the seventh. The cultivation of vanilla in German East Africa is impeded by the absence of insects which are instrumental in fructifying the vanilla blossoms. Each separate flower has therefore to be fructified by human hands, the cover of the stigma being raised by means of a thin little rod, and the pollen, which is just above the cover, is pressed against the stigma.

When the young beans have grown to the length of a finger they must be closely inspected, and all defective ones must be cut off. The beans mature from seven to eight months after the fructification process. The ripe beans have a yellowish green color.

The way of preparing the beans varies, but an ever increasing temperature is required to dry them and obtain the well known brown black color. In this way the thin skinned bean, with its fine aroma, is produced. If hot water is used for heating the beans they are placed in baskets and immersed in it. The water has a temperature of 80 to 84 degrees Reaumur. Afterward the beans are packed into wooden boxes, which are lined with woolen cloth, and closed. Next day they must have a glassy appearance. They are then again wrapped in dark woolen covers and laid in the sun to dry. If the weather is rainy they must be dried in a dry room at a temperature of 50 degrees Reaumur, but an after drying in an airy room of from two to four weeks is necessary. After that the dry beans are packed in boxes.—New York Herald.

Elders Sons.

According to some curious investigations conducted by English scientists, eldest sons tend to be criminals and youngest sons paupers. A great many thousand school children and many family histories have been examined to yield these results. Firstborn children were found to be, as a rule, taller and heavier, with greater ability and endurance than the others. This is in accordance with the popular feeling in many countries that the oldest child is superior to the others and deserving of special privileges. It is a well established fact that among men of genius an undue proportion are eldest sons.

Warding Off a Catastrophe.

A fat woman entered a crowded street car, seized a strap, stood directly in front of a man seated in a corner. As the car started she lunged against his newspaper and at the same time trod heavily on his toes.

As soon as he could extricate himself he rose and offered her his seat. "You are very kind, sir," she said, panting for breath. "Not at all, madam," he replied. "It's not kindness. It's simply self defense."

Force of Habit.

A physician started a model insane asylum, says the New York Sun, and set apart one ward especially for crazy motorists and chauffeurs. Taking a friend through the building, he pointed out with particular pride the automobile ward and called attention to its elegant furnishings and equipment. "But," said the friend, "the place is empty. I don't see any patients." "Oh, they are all under the cots fixing the seats," explained the physician.

DEFECTIVE SIGHT.

Malformations of the Eye Cause Many Defective Vision.

Advanced civilization brings its penalties, and defective eyesight is an ever increasing proportion of one of them. There are 8,000,000 people in England who wear or should wear glasses, and this number does not include the defective sight of age. Modern science, more especially in this country, France and America, is coming to the rescue. It has been found that a large percentage of what is technically known as errors of refraction can be cured. The defect depends on a misshape of the eyeball. In myopia the eye is too long. The sufferer is short sighted and also near sighted—that is to say, he can see fine print at a very short distance and much more distinctly than a person with normal vision. Beyond a certain distance the world is to him a perpetual fog. People, if he sees them at all, are misty, like ghosts. Without glasses he cuts his friends in the street. On this point he becomes very sensitive. Beyond these inconveniences he does not suffer, in low and moderate degrees of vision at least, and in compensation he dispenses with glasses for reading in old age, which he would have been forced to wear if his sight had been normal. The wonderful old lady of ninety that one reads about, who can read the finest print without spectacles, is no miracle at all, but simply a myope. In hypermetropia the eye is too short. In young life, in low and moderate degrees at least, there is no short sight. Objects can be seen at a greater distance than normally. The patient is long sighted. But, alas, here his advantage ends. In nearly all cases there is pain or headache unless glasses are constantly worn, and reading with the naked eye is difficult or impossible.

In the third class, astigmatism, the eye is irregular. The cornea, the transparent part in front, is more curved in one direction than in another. All objects, far or near, are blurred. Like the hypermetropia, the astigmatic patient usually suffers severely when without glasses. What is the outlook for these unfortunate people, who, under the conditions of modern life, are becoming more and more numerous? Fortunately a remedy has been found. Errors of refraction, as we have seen, are due to a misshape of the eye. Can this malformation be rectified? It cannot. The eye is an elastic ball filled with a semifluid. The shape could no more be changed than could be the shape of a tennis ball.

Nevertheless there is another way of accomplishing the desired object. In the normal eye rays of light focus naturally on the retina, the sensitive part at the back. In the abnormal eye the retina does not correspond in position to the focusing point. Though it is not possible to shift the position of the retina, it is possible to alter the position of the focusing point. That this can be done depends on the fact that just behind the pupil is a little body called the lens. The lens is modifiable in shape, and on that shape depends the position of the focus.

It is now several years since Dr. Darier of Paris showed that the lens could be made more convex, thus throwing the focus farther forward and curing hypermetropia. In 1904 the ophthalmic surgeon of the Battersea Park hospital, London, went further and exhibited a score of cases of all kinds of error of refraction in persons who had been completely cured of glasses. As the cure is now an accomplished fact and as the process is painless and safe, there is hope for the great army of spectacle wearers—that is to say, for those who use glasses because of errors of refraction, myopia, hypermetropia and astigmatism. For the weakened focusing power of age nothing has yet been done.—Pall Mall Gazette.

Shooting the Geese For Market.

The Vilna province of Lithuania is probably the only part of the world in which geese are shot. This district is famous for geese, which are driven on foot to distant markets. To prevent the birds from getting footsore on the journey they are made in the late autumn to practice the "goose step," first in tar and then through fine sand. The geese are thus provided with perfectly fitting pairs of boots, in which they can comfortably perform the 800 mile march to the goose fair at Warsaw.

Deafness Can Not Be Cured

by local applications, as they cannot reach the diseased portion of the ear. There is only one way to cure deafness, and that is by constitutional remedy. Deafness is caused by an inflamed condition of the mucous lining of the Eustachian Tube. When this tube is inflamed you have a rumbling sound or imperfect hearing, and when it is entirely closed, Deafness is the result, and unless the inflammation can be taken out and this tube be restored to its normal condition, hearing will be destroyed forever, nine cases out of ten are caused by Catarrh, which is nothing but inflamed condition of the mucous surfaces.

We will give One Hundred Dollars for any case of Deafness (caused by catarrh) that cannot be cured by Hall's Catarrh Cure. Send for circulars, free.

Now that the national election is over and the Republican candidates are victorious, the next thing in order is the Democratic primary next Saturday. Let every Democrat in the county go to the polls and vote for the candidate whom he thinks best fitted to fill the office to which he aspires. By exercising this right, the best men will no doubt be nominated and Wolfe county will be redeemed at the next general election by rolling up a larger Democratic majority than ever before.

He Is a Candidate.

Pine Ridge, Nov. 2, 1908.
Editor HERALD, Hazel Green, Ky.
Through the columns of your paper I desire to say to my friends, both Republicans and Democrats, that I am a candidate for the office of Circuit Court Clerk of Wolfe county, and respectfully ask your support at the November election, 1909.

Yours very respectfully,
H. CLAY LACEY.

Farris Simpson, the former Lexington barber, arrested on the charge of murdering Scipio Noble, ex-United States soldier, whose badly decomposed body was found recently near Covington, was dismissed Monday on motion of the commonwealth. Simpson told a straight story of his acquaintance with the dead man, and the prosecution could produce no evidence connecting him with the death of Noble. It is believed that the ex-soldier committed suicide.

Notwithstanding the extreme drouth which has been prevalent throughout the entire country and the numerous forest fires reported from everywhere, this immediate locality has so far escaped the ravages of the devouring element-fire. Reports now reach us that forest fires have broken out in the hills surrounding Jackson and are doing much damage to standing timber. There is said to be no danger to the town at present.

LANDS ON ITS FEET.

The Fall of the Cat and the Curiosity of Scientists.

The curiosity of scientists knows no bounds. The French Academy of Sciences once had under examination and discussion the very interesting question, "Why does a cat always fall on its feet?" The old answer, "In order that it shall not break its back," did not serve in this investigation. Members of the academy were desirous of ascertaining not only the real reason, but the precise method by which a cat, when dropped feet upward, manages to turn over instantly in the air, with no object to brace itself against in order to procure the muscular reaction that would seem to be necessary for the revolution.

To assist its study the distinguished members of the academy had one of its scientists prepare a series of instantaneous photographs showing a cat in various stages of a fall from a considerable height. These photographs were obtained under the personal inspection of a committee, and several successful "drops," which the unfortunate cats must have been totally unable to account for, were necessary.

The photographs, it may be mentioned, failed to establish anything, except that the cat actually turned over in the air. As to how she did it, they afforded no clue. And as it was already known that she did it, the camera may be said to have contributed nothing toward the solution of the problem.

The committee next set itself about settling the matter by discussion. Several members presented their theories and compared notes. The laws of mechanics and geometry were applied to the known movements of the cat, with no other effect than to prove that a cat cannot possibly turn over in the air, which, however, it is well established that she does.

One academicien maintained that the animal is able to displace its internal organs in such a way as to affect its center of gravity while in the air, causing it to turn, by a new center of weight, to one side and then, by another displacement, to throw the weight so that its back comes uppermost.

This claim, however, was but an unproved theory. Another man of science insisted that at the very instant when the cat is dropped, say, from the hands of the person who holds her, feet uppermost, she is able to make an impulsive movement, using the operator's hands to push against, as it were. At all events the cat begins to turn instantly upon being let go.

However, it has against it the fact that the cat turns successfully when there are no hands or other objects to push against—when, for instance, she is firmly held, back downward, by threads, which are cut at the right moment, allowing her to drop suddenly.—New York Times.

Historical Accuracy.

An American traveler visited Warwick castle during his tour of Europe. A tall young soldier took him through the historic house, pointing out each object of interest with a long stick.

"Ere, sir," he said in one of the state chambers, "ere is an ancient old portrait of Queen Bess. A fine work."

The American looked at the portrait, and there was a long, impressive silence. To break this silence more than for any other reason the visitor finally said:

"Queen Bess, eh? She was a pretty old lady when she died, wasn't she?"

The guide shook his head.

"Not pretty, sir, but very old," he said.

It has had the largest circulation for more years than any newspaper printed in America. Furthermore, it is the cheapest newspaper in the world, as will be explained to any person who will write us for terms. The News of the World so arranged that busy people can more easily comprehend, than by reading cumbersome columns of dailies. All topics made plain in each issue by special editorial matter written from inception down to date. The only paper published especially for people who do not read daily newspapers, and yet thirst for plain facts. That this kind of a newspaper is popular, is proven by the fact that the Weekly Blade now has over 200,000 yearly subscribers, and is circulated in all parts of the United States. In addition to the news, the Blade publishes short and serial stories, and many departments of matter suited to every member of the family. (Only one dollar a year. Write for free specimen copy. Fine Farm for Sale.

I offer for sale my farm, located in Morgan County, Ky., on Blackwater, one mile south of Ezel. A good dwelling with ten rooms, halls and porches. There is one drilled well and three walled wells, each furnishing an abundance of water, right in the yard. All the outbuildings necessary, including barns, cribs, &c.

100 Acres of Virgin Timber.

A FINE ORCHARD OF FRUITS.

I will sell the 400 ACRES as a whole, or divide to suit purchaser. The place is well watered and fenced, in a good neighborhood, has a good pair of stock scales, and is within one mile of a good school house on each of two sides, with telephone in the house. Indeed everything is convenient. Any one wishing a good home should call and get my price before buying.

JOHN D. HENRY,
Murphy, Ky.

THINKING OF MOVING WEST?

It not then make up your mind and write me for descriptive list of farms in Missouri, Kansas and Oklahoma. All fine, level, productive land that will grow anything under the sun, at prices ranging from \$15 to \$40 an acre, and come where life is made tolerable by easy, profitable farming. Why sweat and fret life away in the vain effort to eke out a mere miserable sustenance from the rock-ribbed, root-iced hillsides as your father and father's father did, when there is so much good land to be had yet awhile for a mere song? Get out of the rut—break away from the time-worn habit that keeps your nose to the grindstone. All it takes is resolution and a little nerve. Write me, and let me help you to a better condition.

Desperate Coughs

Dangerous coughs. Extremely perilous coughs. Coughs that rasp and tear the throat and lungs. Coughs that shake the whole body. You need a regular medicine, a doctor's medicine, for such a cough. Ask your doctor about Ayer's Cherry Pectoral.

We publish our formulae. We banish alcohol from our medicines. We urge you to consult your doctor.

Any good doctor will tell you that a medicine like Ayer's Cherry Pectoral cannot do its best work if the bowels are constipated. Ask your doctor if he knows anything better than Ayer's Pills for correcting this sluggishness of the liver.

THE HERALD.

DRINK WAINSCOTT'S POP.

Charley Rose, of Richmond, is here for a two weeks' stay with heme folks.

Miss Nettie Nickell, of Lacy creek, visited her aunt, Mrs. Ellsworth Lacy, last week.

Mr. and Mrs. W. E. Back and daughter, Hallie Day, were over from Cannel City Sunday.

Mesdames Charles Hurt and Az Dennis spent Friday with Mrs. Doc Stamper, on Grassy Creek.

Mr. and Mrs. C. F. Kash left Sunday for Campton by way of Landsaw, where they spent Sunday night with Edgar Kash.

Doc and Joe Stamper and James H. Day, of Grassy creek, attended the funeral of their Masonic brother, Sam Kash, at Ezel, Monday.

A two-year-old child of Goodloe Hoiday, of Caney, was so seriously burned Tuesday of last week that it died a few hours after the accident.

Milt Lykins, of Montgomery county, was in this section buying cattle this week, and attended Ezel lodge at the obsequies of Bro. Kash.

Flave, the little son of Mr. and Mrs. Ed Cecil, is very ill with fever, but Dr. A. C. Nickell, the attending physician, says he will pull through.

Everett Back, the gentlemanly conductor of the O. & K. passenger train, with his wife, visited the latter's parents, F. N. Day and wife, at this place, Sunday.

Miss Lillie Patrick, a daughter of our former citizen, Lee Patrick, and wife, eloped with and was married to Tom Day, a son of John Day, ex-sheriff of Menefee county.

George Lovelace, Jim Reynolds and several whose names we did not learn passed here Tuesday painting the pipe of the Cumberland Pipe Line Co. Asphaltum, linseed oil and turpentine are the material they use and the knowledge may be useful to any who have pipe to paint.

John D. Rose of Lacy creek, has the thanks of the editor and his better seven-eighths for a fine large mess of turnips. Well, it was one turnip, but it measured 26 inches in circumference and made enough for a meal for the whole HERALD household and then some. Can anybody beat it?

The quarterly meeting of the M. E. Church, South, will begin at Hazel Green on the fourth Sunday in this month. Presiding Elder Southgate will conduct the meeting and be assisted by Revs. Ragan and Owsley, and if interest is sufficiently manifested the meeting may be indefinitely protracted.

Masons from this place who attended the burial of Sam Lee Kash, at Ezel, Monday, estimated that the fraternity was represented by at least 75, and some tho't as high as 90, notwithstanding the short notice. West Liberty, Frenchburg, Greenville, Maytown and several other lodges were represented.

Like the Rock of Gibraltar.

Among the advertisements that have continuously appeared in THE HERALD there is not one that we appreciate more than that of the Winchester Bank, the president of which is a gentleman of the old school, an encomium which is as high as any standard that we could build. By his courteous treatment, coupled with honorable business tactics, he has maintained a permanent and profitable business throughout this country notwithstanding the many good local banks. The Winchester Bank is like the rock of Gibraltar, impregnable, and one great reason is that Mr. Witherspoon and all officials connected with the institution treat everybody with the utmost courtesy. It is Mr. Witherspoon's trade-mark, apparently, and a glance at a recent statement proves the bank's solidity. For instance, they have on deposit \$587,783.28, their capital stock is \$100,000, and they have a surplus of \$20,082.90. It is a power and no mistake, and the biggest capital is the politeness of all the officials.

Neyer A Flirt.

The Southern girl of the antebellum period—the rose of the old regime—was a heart's delight. She was never a flirt. There is a difference between flirt and coquette—the kind of difference there is between a humming bird, making a dainty pretence of kissing a jasmine—and a cat playing with mouse. Coquetry with the Southern girl of that by-gone day was the unconscious challenge of a feminine woman accustomed to homage. It is never verged upon coarseness or cruelty—never lost her the man's esteem, which remained to her after the hot whirl of the senses had subsided under the cool surprise of her look. No, the Southern girl was no flirt. She was sentimental. It was her sweetest charm—the drop of dew in the heart of the rose, keeping it fresh forever. Her sentiment not sickly. The girl who cherished a dead flower her lover had given her, would bind up his wounds on a bloody battlefield or ride through a storm of bullets to warn him of danger—or cook his dinner and iron his shirt when he was her husband, and had lost his patrimony and beaten his sword into a plowshare. They were capable of dying with broken hearts—those girls—but dying with unlowered colors.—Mary E. Bryan, in Uncle Remus's—The Home Magazine for November.

A Rising Young Minister.

The writer has many times heard of Rev. Harlan Murphy, a native of Morgan county, and THE HERALD has often mentioned his meetings, but until Monday the editor never had the pleasure of meeting him personally. Now that we have, we must say that he has the elements of a finished pulpit orator, and had he the education coupled with his eloquence he would prove eminent in the pulpit. In brief, he is another proof of the eloquence in embryo that may be found in the mountains of Eastern Kentucky. He is comparatively a young man, and unless we mistake not, he will prove a power in the Master's cause and eminent for his eloquence.

Sudden Death.

Sam Lee Kash, a prominent attorney of Morgan county, residing at Ezel, died Sunday morning while teaching the Bible class in the Sunday school at that place, and was buried Monday afternoon at 3 o'clock, the obsequies being under the supervision of the Masons, to which order he belonged. The Jr. O. U. A. M. also assisted in the burial, and there was quite a large crowd of sympathizing friends attending, which attested his popularity among his own people. He was also a member of Maccabees and in consequence will leave his widow an insurance of \$1,000, besides which he left but little. Sam Lee was quite a favorite, and had he lived would in all probability have been the nominee for County Attorney on the Democratic ticket.

Make It Yourself.

There is so much Rheumatism here in our neighborhood now that the following advice will be highly appreciated by those who suffer:

Get from any good pharmacy one-half ounce Fluid Extract Dandelion, one ounce Compound Kargon, three ounces of Compound Syrup Sarsaparilla. Shake these well in a bottle and take in teaspoonful doses after each meal and at bedtime; also drink plenty of good water.

It is claimed that there are few victims of this dread and torturous disease who will fail to find ready relief in this simple home-made mixture, and in most cases a permanent cure is the result.

This simple recipe is said to strengthen and cleanse the eliminative tissues of the Kidneys so that they can filter and strain from the blood and system the poisons, acids and waste matter, which cause not only Rheumatism, but numerous other diseases. Every man or woman here who feels that their kidneys are not healthy and active, or who suffers from any urinary trouble whatever, should not hesitate to make up this mixture, as it is certain to do much good, and may save you from much misery and suffering after a while.

Our home druggists say they will either supply the ingredients or mix the prescription ready to take if our readers ask them.

A Noteworthy Number.

From the charming three-color reproduction of one of Henry Hutt's paintings of a beautiful woman—used as a cover design—to the final page, the November number of Uncle Remus's—The Home Magazine, published at Atlanta, Ga., is filled with exceptional short stories, interesting articles and pictures of more than ordinary excellence. The dainty society debutante whose smiling face looks into yours from the Magazine cover, is one of Mr. Hutt's best artistic efforts and stamps him at once as an artist of unusual possibilities. The cover design is striking, and is quite in the lead of those appearing on any of the November magazines.

Mrs. W. H. D. Totten, of Montgomery, Ohio, Miss Emma McElroy, her maiden sister, of Silvertown, Ohio, and the former's little daughter, Miss Mignon, a petite and pretty little Miss four years of age, were guests of the Swango House for about a month. During their sojourn they made many friends here who were loath to see them leave, but they have promised to spend a month or so with us next year, if alive, and we can anticipate their pleasant company at that time.

Thanksgiving Bazaar.

The Ladies Aid Society decided to hold, as usual, a Bazaar about Thanksgiving time, the proceeds of which are to be equally divided between the Cemetery Association and C. W. B. M. Auxiliary of this place. The former will use it for fund for improving the cemetery grounds while the latter will make a Centennial offering out of its share of the proceeds.

As this is of interest to all we ask and hope that everyone will contribute generously for the Bazaar.

Rheumatic Pains relieved by use of Dr. Miller's Anti-Pain Pills. 25 Cents a Box.

Henry Pieratt, of Richmond, who has been here for a week or ten days looking after the interest of the bank and his own affairs, left for home yesterday. But a day or so before he had carefully packed and expressed to his home the cradle in which Herald, Mary, Tom and Bruce were nursed. He said if the item were published he would kill the editor, and in fear we put it in type, but Dr. Nickell and Dr. Stamper, who claim there is some significance in the shipment, have promised us all the protection within their power, so we are taking chances.

A well known farmer says: "Sprinkle sulphur on your barn floor and through your corn as you gather it, and there will not be a rat or mouse to bother. I have some old corn in my crib at present and not a rat or mouse can be found. In stacking hay or oats, sprinkle on the ground a little and through each load, and my word for it, rats or mice can't stay there. A pound of sulphur will be sufficient to preserve a large barn of corn and is good for stock and will not hurt the corn for bread."

A gentleman by the name of Golden, from Waukegan, Ill., has been here for a week or more trying to sell an imported German coach horse, and is a great pity that he was not purchased. The horse is a dapple bay, 4 years old, weighs 1350 pounds, and is perfect in every point. Such a horse with our best native mares would improve our horse stock greatly in two or three years.

Nervous Break-Down

Nerve energy is the force that controls the organs of respiration, circulation, digestion and elimination. When you feel weak, nervous, irritable, sick, it is often because you lack nerve energy, and the process of rebuilding and sustaining life is interfered with. Dr. Miles' Nervine has cured thousands of such cases, and will we believe benefit if not entirely cure you. Try it.

"My nervous system gave away completely, and left me on the verge of the grave. I tried several physicians but got no permanent relief. I got so bad I had to give up my business. I began taking Dr. Miles' Nervine. In a few days I was much better, and I continued to improve until entirely cured. I am in business again, and never take an opportunity to recommend this remedy." Mrs. W. L. Hinkle, Myrtle Creek, Oregon.

Your druggist sells Dr. Miles' Nervine, and we authorize him to return price of first bottle (only) if it fails to benefit you.

KENTUCKY KERNELS

Carefully Collated and Concisely Chronicled.

Daugh Cornet, of Clay county, shot and killed his divorced wife last week and escaped into the mountains. A reward is offered for his capture.

Leslie county is the most unanimous county, politically, in the state. At the recent election there were polled 1,402 Republican votes and 94 Democratic.

Mat Ford, a well-to-do farmer of the Carson neighborhood, in Montgomery county, was working with a young mule when he was kicked and had several ribs broken.

At the Kansas precinct, in Grayson county, Ross Burges was killed on election day by William Peebles because they disagreed as to the merits of the candidates in the sheriff's race.

When Hocker, the murderer of Drummond N. Veal, confined in the Lexington jail, was told that the date of his execution had been fixed for Friday, December 4, he expressed surprise at the early date, saying, "I would like to have stayed here until after Christmas, but I am ready to go."

The will of the late Judge James Hargis has been found and probated. By its provisions the widow, Mrs. Luella Hargis, becomes sole heir, Beach Hargis, the son, and Mrs. Evelyn Hogg, the daughter, having no interest in the estate. It was found by Floyd Day among some private papers.

A dispatch from Jackson to the Lexington Evening Gazette says: "While drilling for water on the T. H. Bemis place, in the edge of town, the operator struck oil in what is believed to be paying quantities. When the drilling machine struck a loose sandstone at a depth of about 1,000 feet the flow of oil was so great as to prevent further drilling."

Wm. Horsley and Clay Mayfield renewed an old grudge at Garrison, Carter county, and Horsley, it is claimed, who had been drinking, cut Mayfield to the bone, severing the muscles of the left arm, and also cut him in the groin, striking a rib, and stabbed him twice in the right arm. One of Mayfield's sons hit Horsley's wife, who was helping her husband, in the head with a rock, and cut a gash that had to be sewed up. Mayfield will die.

How is Your Digestion.

Mrs. Mary Dowling, of No. 228 8th avenue, San Francisco, recommends a remedy for stomach trouble. She says: "Gratitude for the wonderful effects of Electric Bitters in a case of acute indigestion, prompts this testimonial. I am fully convinced that for stomach and liver troubles Electric Bitters is the best remedy on the market to-day." This great tonic and alterative medicine invigorates the system, purifies the blood and is especially helpful in all forms of female weakness. 50c. by all dealers.

Much Simpler.
At a country fair a man went up to a tent where some elk were on exhibition and stared wistfully up at the sign.
"I'd like to go in there," he said to the keeper, "but it would be mean to go in without my family, and I cannot afford to pay for my wife and seventeen children."
The keeper stared at him in astonishment. "Are all those your children?" he gasped.
"Every one," said the man.
"You wait a minute," said the keeper. "I'm going to bring the elk out and let them see you all."

Watched Fifteen Years.

"For fifteen years I have watched the working of Bucklen's Arnica Salve; and it has not failed to cure any sore, boil, ulcer and burn to which it was applied. It has saved us many a doctor bill," says A. F. Hardy, of Wilton, Maine. 25c. by all dealers.

He Remembered.
Uncle Johnny Major was an absentminded southern gentleman. One day Mose opened the big gate when his master drove to church and was uncertain whether to close the gate or leave it open, so he cried out as Uncle Johnny drove through, "Massa, mus' I shot de gate?" In the village church five miles away pastor and people were astonished when Uncle Johnny, halfway down the aisle, halted with sudden recollection, half turned and said, "Yes, Mose, shut the gate!"

Seven Years of Proof.

"I have had seven years of proof that Dr. King's New Discovery is the best medicine to take for coughs and colds and for every diseased condition of throat, chest or lungs," says W. V. Henry, of Panama, Mo. The world has had thirty-eight years of proof that Dr. King's New Discovery is the best remedy for cough and colds, la grippe, asthma, hay fever, bronchitis, hemorrhage of the lungs, and the early stages of consumption. Its timely use always prevents the development of pneumonia. Sold under guarantee by all dealers. 50c. and \$1.00. Trial bottle free.

Democratic Primary Call.

At a called meeting of the Wolfe County Democratic Executive Committee which met pursuant to call at the court house in the town of Campton, Wolfe county, Kentucky, in the County School Superintendent's Office, on the 7th day of September, 1908, the following members of said committee (being a majority of same and a quorum) were present: Chairman, T. F. Stamper; 1st precinct, Floyd Arnett; 2nd precinct, J. P. Rose; 3rd precinct, J. C. Lykins by proxy, Arthur Lykins; 4th precinct, W. W. Bryant; 5th precinct, David Banks; 6th precinct, J. C. Barker; 7th precinct, Joe Ingram; 8th precinct, Walter Oliver; and 8th precinct A. B. Cox.

Floyd Arnett tendered his resignation as secretary of said committee, which resignation was accepted.

Motion was made by Floyd Arnett, and seconded by W. W. Bryant, that A. B. Cox be made secretary of said committee. Motion carried and A. B. Cox, committeeman from the 9th precinct, was elected secretary of the committee.

The purpose of the meeting having been stated by the Chairman, T. F. Stamper, to be to name the time and manner of selecting nominees of the Democratic party as candidates for the various county offices, to be voted for at the regular November election, 1909, the following resolutions, upon motion having been made by W. W. Bryant, and seconded by Walter Oliver, were unanimously adopted by the said committee.

Resolved, let—That a Primary Election shall be held in each of the nine precincts of Wolfe county, Kentucky, on the 14th day of November, 1908, between the hours of 6 o'clock a. m. and 4 o'clock p. m., the polls therefore to be opened at the regular voting place in each of said precinct, for the purpose of nominating Democratic candidates for each of the county offices to be voted for at the regular election to be held in November, 1909, the candidates to be selected being a candidate each for the following named offices: County Judge, Sheriff, Superintendent of Schools, County Court Clerk, Circuit Court Clerk, County Attorney, Assessor, Jailor, Coroner and Surveyor.

2nd—That all Democrats of the county who will be eligible to election for the respective offices to which they aspire at the regular November, 1909, election, and who shall conform to the requirements, rules and regulations of this Primary Call, as herein set out, shall be eligible to, and may be voted for, as candidates before the said Primary for the nomination as a candidate for such of said offices as they may make known their desire to be candidate for, in the manner hereinafter prescribed; provided, however, that no one man shall be a candidate for more than one of the said offices hereinafter named.

3rd—Any person or persons desiring to become a candidate for nomination for any of the offices before named herein, shall, on or before the 30th day of October, 1908, said last named date being just fifteen days before the time set herein on which said Primary Election is to be held, make known to this committee the office for which he desires to become a candidate, by so notifying the chairman of this committee, either orally or writing, of the office for which he desires to be a candidate before said Primary, and if he desires to be a candidate for any one of the first named eight offices herein he shall pay to the said chairman of this committee and take his receipt

therefor, the sum of \$5.00, or if he desires to be a candidate for the office either of Coroner or Surveyor, he shall likewise make known his intention and pay to said chairman the sum of \$2.00, said amount so paid to be used in helping to defray the expenses of this Primary Election. Except that, if the chairman of the said committee is absent from the county or state, or cannot be found, then the secretary of said committee shall be notified in the manner hereinbefore indicated for the notification of the chairman and the same funds shall be paid to him and for the same purpose as hereinbefore required to be paid to the chairman. Those who are first to register shall have their names placed first on the ballots to be voted for for the respective offices for which they are candidates, and so on, having preference for places on the ballots in the order in which they register for the office for which they are to run—that is to say, whoever registers first for any office shall have his name printed first on the ballot as a candidate for that said office, and whoever registers last shall likewise have his name printed last as a candidate for said office, and so on through. Any one so notifying this committee and thus becoming a candidate shall be bound by all the rules, regulations and requirements of the Democratic party and the law of this state governing primary elections. And any person who shall have paid to the committee as hereinbefore mentioned his registry fee, shall not be entitled to recover any of same from the said committee, by action or otherwise, even though after depositing same he should withdraw from the primary and have his name withdrawn; and whatever amount, if any, of funds remaining in the hands of this committee, after the expenses of the primary election have been paid, shall be used by the said committee to defray the expenses (lawful) of the party in effecting proper party organization over the county, and in case a sufficient amount of money is not paid to the committee to pay the expenses of the primary in the way above designated, then those candidates who shall have been declared the nominees for the respective offices in the manner hereinafter prescribed, shall pay to said committee, ever balance of said primary expenses remain unpaid, ratably and in proportion to the amount required herein to be first paid by the candidates for the respective offices.

4th—All persons shall be allowed a vote for a candidate each for the various county offices at the time legal elections in the precinct where they apply for the privilege to vote, and who are known by the respective primary election boards to be Democrats or who will make oath that they did not vote for any Republican candidate before the people to be voted for at the regular November election, 1908, provided they conform to the conditions and qualifications prescribed by the committee having control of said primary; and provided further, that all male citizens of this county, and state otherwise entitled to vote but who are not yet 21 years of age and who will be at least 21 years of age at the time of holding the regular election in 1909 (November) shall be entitled to vote in this election; and provided further, that all persons desiring to vote in this Primary Election shall, if requested to do so by either of the judges of said election at their respective voting places, be required to make affidavit that they will support all persons nominated for the various offices by said primary.

5th—This committee shall meet again at the court house in the town of Campton, Wolfe county, Ky., in the county attorney's office, if available, otherwise in some other room of said court house, on the 4th day of November, 1908, at which the committee shall declare who are candidates to be voted for at the said primary election, and shall at the same time and place make proper provision for having the ballots for the various precincts throughout the county printed and distributed, and shall at the same time and place and in the manner prescribed by law, elect and appoint the various precincts of the county, that may be appointed at that time, to-wit: Two judges, a sheriff and a clerk for each precinct of the county.

6th—Within two days after the said primary election shall have been held and conducted as herein provided, the election officers of the various precincts, after having performed the other duties of their respective offices required and enjoined upon them by law, deliver to the chairman of this committee the ballot box and the poll books, certificates and the envelope containing the spoiled, mutilated and questioned ballots, and the keys to the ballot box, together with the election seal, and the officers delivering same shall do so in the manner prescribed by law, and the officer receiving same shall receive same in the manner prescribed by law, at the court house in the town of Campton. On the third day after the holding of said election as herein prescribed, this committee shall again meet in the town of Campton in some convenient room or office, and shall then and there count the votes received by all candidates in such primary election and shall declare the candidates receiving the highest number of votes the nominees for the respective offices for which they were voted for at said primary election. The said committee shall have the power and authority to declare the nominee in case of a tie vote between any two candidates for any of said offices, as well as any and all contests arising from said primary election.

7th—Notice of this primary election call shall be given by this committee at least forty days prior to the date of holding said election by the chairman, or secretary, or chairman and secretary hereof, posting said notice at the court house door and at least twenty other public places in the county of Wolfe.

8th—That the proceedings of this meeting be published in the HAZEL GREEN HERALD.

9th—That this committee do now adjourn to meet again at the place hereinbefore designated on the 14th day of November, 1908.
T. F. STAMPER, Chairman.
A. B. COX, Secretary.

Don't Worry

If you are sick, don't worry, but begin at once to make yourself well. To do this, we but repeat the words of thousands of other sufferers from womanly ills, when we say:

TAKE CARDUI

It Will Help You

For 50 years, this wonderful female remedy, has been benefiting sick women. Mrs. Jennie Merrick, of Cambridge City, Ind., says: "I suffered greatly with female trouble, and the doctors did no good. They wanted to operate, but I took Cardui, and it made me feel like a new woman. I am still using this wonderful medicine, with increasing relief."

Don't Use a Scarecrow

To Drive Away the Mail Order Wolf

You can drive him out quickly if you use the mail order houses' own weapon—advertising. Mail order concerns are spending thousands of dollars every week in order to get trade from the home merchants. Do you think for a minute they would keep it up if they didn't get the business? Don't take it for granted that every one within a radius of 25 miles knows what you have to sell, and what your prices are. Nine times out of ten your prices are lower, but the customer is influenced by the up-to-date advertising of the mail order house. Every article you advertise should be described and priced.
